Library Report.

Over four thousand books have been taken from our library and branch during the past year, and in the names of nearly three hundred of Hampstead's citizens.

One hundred and twelve new books have been added to our shelves, besides several magazines, the gift of Mrs. Mary L. Eastman.

The walls of the reading room have been adorned by a valuable map of the United States, a gift from the trustees. Surely this has been a prosperous year.

A word in regard to our finances:—We have been asked why, when our report shows a balance of money on hand, we ask for the same annual appropriation for the support of our library.

In reply we would state, the one hundred and fifty dollars appropriated by the town just about meets the running expenses of the library and branch, as you may see by referring to our reports from year to year. From the income of the funds we try each year to add a reasonable number of new books, pay the insurance on building and books, and make necessary repairs.

For an illustration,—This year we show a balance on hand of \$86.16; before we can expect to receive any money from our funds, we will pay \$50.00 for insurance; add to this the fact that in the near future the basement needs to be cemented in order to protect our furnace and fixtures, also our building, and you will not wonder why we try each year to create a little fund to meet these expenses instead of spending each year all we get for books, and then asking the town for a special appropria-

tion for insurance and repairs.

We believe with a careful expenditure of the income of our funds, and the same annual appropriation by the town, all expenses of the library can be met without any further burden to our taxpayers. We solicit suggestion.

School Report.

Your board is pleased to be able to report the schools as being in a good condition, and that they all seem to be doing good work and in a quiet and happy manner.

In No 6, the teacher, for reasons of her own, declined to return after the Christmas holidays, and with the unanimous consent of the parents the school was closed; and the pupils, to the number of four, have been transferred to No. 7. In view of the small number of pupils at that time, only six, your board considered that the transfer was the best for both the pupils and the district.

Your board would respectfully thank the parents in the district for the many ways in which they have manifested their interest in the schools, and hope they will continue to do so in the future.

During the past year two hundred and seventy parents and friends have visited the several schools, a very satisfactory proof of their interest.

W. D. ROGERS,
